NIKHIL SINGH CHAUHAN

Bhopal, M.P | +91 9981968146 | Gmail | LinkedIn | GitHub | Portfolio | Leetcode

OBJECTIVE

Motivated Computer Science undergraduate specializing in Java with hands-on experience in building intelligent systems and full-stack applications. **SIH 2025 National Winner** with proven leadership and project execution skills. Seeking internship or entry-level software engineering roles to apply problem-solving skills and contribute to impactful real-world solutions.

EDUCATION

LNCT University, Bhopal *2023 – 2027*
B. Tech in Computer Science Engineering (AI/ML) | CGPA: 7.13

Shri Ganesh Higher Secondary School, Sidhi *2022 – 2023*
Class XII (PCM) — 66%

Shri Ganesh Higher Secondary School, Sidhi *2020 – 2021*
Class X — 95.17%

SKILLS

Languages: Java, Python, JavaScript, TypeScript
Web & Frameworks: React, Spring boot, Responsive Web Design
Databases & Cloud: SQL, Firebase, Supabase, Real-time Data Systems
Tools & Practices: Git, GitHub, VS Code, OOP, Data Structures & Algorithms, System Design, Agile

EXPERIENCE & ACHIEVEMENTS

Agentic AI Program Intern — ESTREL.AI (WiiZ) *Dec 2025 - Jan 2026*

- Completed an intensive program on Agentic AI system design and workflow automation.
- Developed AI-driven use cases within the WiiZ ecosystem for intelligent task execution.
- Gained hands-on experience in real-world AI deployment and automation pipelines.

UI/UX Designer — Smart India Hackathon (SIH) 2025 (National Winner) *Nov 2025*

- 6-member team to design and deliver an AI-powered tourism platform at national level.
- Built personalized recommendation system and multilingual chatbot using ML techniques.
- Integrated blockchain-based verification and real-time analytics dashboards.
- Delivered end-to-end solution including geo-location, AR/VR previews, and marketplace features.

PROJECTS

ME & PDFS – AI-Powered PDF Toolkit *2026*
Python | Flask | Supabase | AI

- Built an AI-powered PDF platform with merge, split, compression, and conversion features.
- Implemented "Chat with PDF" feature for intelligent document querying.
- Designed a scalable backend architecture to handle multiple document operations efficiently.

Dr.One – AI Smart Health Assistant *2026*
Python | AI/ML

- Developed an AI-based system for symptom analysis and health risk prediction.
- Designed ML models for personalized health recommendations.
- Integrated user input processing for real-time analysis and response generation.

FinRisk AI – Financial Risk Analysis *2026*
TypeScript | PLpgSQL | CSS

- Developed an AI tool to analyze financial data and generate risk insights.
- Designed NLP-based data extraction pipelines.
- Structured and processed large financial datasets for improved analysis accuracy.

Coding Ninjas Clone *2025*
React |Tailwind CSS

- Built a Coding Ninjas clone with responsive UI and structured course layout.
- Implemented interactive features like course sections, navigation, and user-friendly learning interface
- Optimized performance and improved user experience with modern UI design.

LEADERSHIP

- 6-member team as Ui/UX designer in Smart India Hackathon (SIH) 2025, securing National Winner position.
- Managed project planning, task distribution, and end-to-end execution of an AI-based solution.

EXTRA-CURRICULAR ACTIVITIES

- Participated in Smart India Hackathon (SIH) 2025, contributing to an award-winning AI-based solution.
- Continuously build and experiment with Java and Python and full-stack projects beyond academic curriculum.
